

WF35 Mobile POS

Mobile on the Go

Samsung 400MHz (ARM9) | 64MB RAM

Options Include...

Features

- POS Hardened mobile POS
- Unique Power Saving Technology
- Reliable/Stable Wireless
- Win CE 5.0
- Seamless Roaming Across Multiple Access Points
- Handwriting Recognition

Peripheral Options

- Integrated MSR
- Extended Life Battery

Designed to Provide Enhanced Computing Performance and Versatility

Touch Dynamic has just launched the WF35 Mobile POS, a wireless PDA solution specifically designed for the hospitality industry. Engineered to meet the needs of demanding hospitality environments, the WF35 is the ideal solution for table-side ordering, wireless payment processing (pay at the table), and line busting applications. The WF35 delivers enhanced Wi-Fi reliability, power saving technology, and is easy to set up and use. It can be deployed and managed in a very cost effective manner by enhancing the driver/firmware of the Wi-Fi module to deliver a reliable wireless communication environment through its single/locked SSID. The WF35 offers seamless roaming across multiple access points and automatic signal drop reconnection.

WF35 Mobile POS

Reliable/Stable Wireless • WinCE 5.0
Seamless Roaming

Processing

- CPU - Samsung 400Mhz (ARM9)
- System Memory - 64MB
- Flash Memory - 128MB (system ROM + user persistent storage)
- I/O Controller - Winbond W83627UHG
- BIOS - AMI

Display & Input Output Devices

- Display- 3.5" TFT QVGA / 65K color
- Input Devices - Stylus / Touch Sensitive display for stylus and fingerprint

Drop Specifications

- Drop Specifications - 4ft drop to concrete floor, 2 drops per side

Audio Slots, Ports & Cover

- Audio & Mic - Speaker, Headset Jack (25mm phone headset)
- Slots & Ports - 1 x Mini-USB 1.1 Host client, 1 x DC Power Jack, 1 x SD card expansion slot
- Protections - Protective flip cover, anti-drop belt strap / anti-slip hand strap, protective leather case (optional)

Communications

- Wireless - Wi-Fi (802.11b/g), Single SSID (persistent wireless connection), seamless roaming, always on Wi-Fi in sleep mode, bluetooth EDR 2.0
- Data Synchronization - Data transfer via Microsoft ActiveSync, 1 x mini-USB cable

Application Deployment & Protection

- Configuration Protections - Protected Admin & User Mode, Administrator Password, Prohibit file access & program installation in user mode
- Mass Deployment - Clone utility for deploying master configured PDA to many PDAs
- Backup & Restore - Integrated backup / restore utility, clone utility for deploying master configured PDA to many PDAs

Optional Magstripe Card Reader (MSR)

- MSR - Robust design for heavy duty, Integrated with the PDA, Low power consumption, Data encryption at hardware level

Real-Time Notification Features

- Notification Features - Vibrating, Programmable LED (6 color)

Battery, Power & Charger

- Standard Battery - Removable & rechargeable 1500mAh battery
- Optional - Extended Battery - Removable & rechargeable 2680mAh battery
- Standard Charger - AC to DC adaptor (connect to DC power Jack)
- Optional - Battery Charger - Stand Alone Single Batter Charger for Standard or Extended Battery

Dimension & Weight

- w/Stand Battery (4.7x3x0.8") - 0.4lbs
- w/Stand Batt & MSR (5.8x3.1x1.1") - 0.48lbs
- w/Ext Battery (4.7x3.1x1") - 0.48lbs
- w/Ext Batt & MSR (5.8x3.1x1.1") - 0.55lbs
